TOTO Introduces the MH Connect+ Wall-Mount Toilet and Washlet

New MH Connect+ Wall-Hung Dual-Flush Toilet and D-Shaped Washlet Combination Offers an Elegant, Seamless Look

(Morrow, GA) January 10, 2017 — TOTO expands its line of Connect+ high-efficiency toilets and Washlet combinations with its new MH Connect+ wall-mount high-efficiency dual flush toilet and D-shaped Washlet. This new addition to TOTO's popular Connect+ line combines powerful Dual-Max 3D Tornado flushing performance with an elegant appearance—modern, clean, simple, and timeless. The WaterSense labelled MH Connect+ high-efficiency toilet (HET) and Washlet pair join TOTO's new MH and popular Maris and Aquia wall-hung, dual-flush models.

Connect+ Line

During the manufacturing process, TOTO's Connect+ line of high-efficiency toilets are pre-drilled with a hole located near the seat bolt holes at the back of the toilet's bowl, which enables the Washlet's power cord and water hose to pass through easily. The specially-designed Connect+ Washlets' electrical connection and water supply are designed to pair seamlessly with the new concealed connection toilets.

People-Centered Design

Like the MH wall-mount HET, the new MH Connect+ wall-hung high-efficiency toilet has a chic design, characterized by a fully skirted bowl with clean, simple lines, which offers design flexibility. This stylish model saves precious space in the bathroom as its DuoFit In-Wall Tank System is concealed along with the

--more--

mounting bolts and connection for its Connect+ D-Shaped Washlet bidet seat. The handsome, user-friendly dual-flush push plate may be removed, providing easy access to the tank's interior components. Lifted from the floor, the wall-mount MH Connect+ HET makes cleaning beneath a simple and easy. This versatile unit may be mounted at standard or Universal Height.

CeFiONtect Glaze

The MH Connect+ HET's vitreous china bowl is coated with CeFiONtect, TOTO's nano-technology glaze that seals the porcelain with an ionized barrier. This creates a super-slippery, non-porous surface that repels visible and invisible waste. When protected by CeFiONtect, the water that cleanses the bowl and rim during the flush also removes waste, stains, residue, and limescale buildup. Owners will need fewer harsh detergents when cleaning the bowl, which are expensive and harmful to the planet.

Dual-Max 3D Tornado Flushing System

The wall-mount MH Connect+ HET's Dual-Max 3D Tornado flushing system reduces the common complaint that many dual-flush HET owners have—the need to flush, then brush the bowl to remove streaking after every solid stop.

Inspired by nature's tornados, TOTO engineers harnessed the power of gravity and water to spin away waste by designing a seamless bowl interior with a concave rim to channel high-speed water jets. Each flush effectively removes matter, debris, stains, residue, and limescale, as it provides superior bowl and rim cleansing action.

This WaterSense-labelled, high-efficiency toilet consumes a responsible 1.28 gallons per flush (gpf) for solid waste and 0.9 gpf for liquid. Averaging solid and liquid stops over the course of a day, the typical flush for this elegant dual-flush toilet is approximately 1.0 gpf.

The new MH Connect+ wall-mount toilet provides interior designers and consumers with a chic, metropolitan design option that is at home in a variety of bathroom interiors and is ideal for a powder room or small bath.

Connect+ D-Shaped Washlet

After any bathroom break, the Connect+ D-Shaped Washlet bidet seat offers warm aerated water to cleanse and warm air to dry. Activated by a simple touch of its silver wireless remote, users control the temperature and pressure of the soothing warm aerated water, self-cleaning dual-action spray wand, heated seat, warm air dryer, and built-in deodorizing system. The D-shaped design of its contoured heated seat offers maximum comfort, and its SoftClose lid closes gently after use, eliminating toilet seat slam.

Premist

The Connect+ D-Shaped Washlet offers TOTO's proprietary Premist technology, which helps keep the toilet's bowl clean by pre-misting it with tap water prior to use. Pre-misting the bowl prevents matter from adhering to its surface approximately 80% better than dry porcelain.

Journalists' Note: As with all TOTO products, high-resolution digital photographs of the MH Connect+ Wall-Hung Toilet and D-Shaped Washlet are immediately upon request.

About TOTO

TOTO USA is headquarters for the Americas Division of the TOTO Global Group, which was established in 1917 with the founding of TOTO, Ltd., in Kitakyushu, Japan. TOTO is the world's largest manufacturer of bathroom fixtures and fittings with \$5.1 billion dollars in annual sales. For the past 100 years, TOTO has been the recognized leader in innovation, technology, performance, and design with products that enhance the luxury bathroom experience. Today, the company maintains 25,700 employees in 69 offices around the world and owns manufacturing facilities in Japan, Mexico, the USA, China and Europe with an affiliated network of more than 80 production facilities worldwide. With over 1,500 engineers on staff and three centers devoted to research and development, TOTO is dedicated to engineering products that respect the environment while meeting people's needs for comfort, beauty and performance. TOTO's corporate philosophy—People-First Innovation—is the guiding principle for all the company's processes, from engineering and design to manufacturing and sales. Consumers enjoy the peace of mind that comes from knowing they purchased a brand that innovates to improve people's quality of life. Winner of numerous domestic and international awards and recognitions, TOTO is the only plumbing manufacturer honored as Water Efficiency Leader by the U.S. Environmental Protection Agency. The company continues to raise industry standards and consumer expectations as to what is

possible in the bath space, as TOTO believes a high-quality bathroom is an experience and an everyday luxury people value and appreciate.
